

I can't say enough good things about it. Of all the self-awareness, self-development, leadership-development stuff I've done (and I've done a LOT!). ***The Enneagram is by far the most powerful and most impactful.***

Boosting Your EQ for Leadership Development with the Enneagram

Bring out your leadership strengths and deal constructively with your derailers

Tue 16 – 17 December 2009

Because a person's leadership style so closely reflects his or her Enneagram style, this program focuses on the multiple aspects of that connection:

1. how the leadership paradigm of each Enneagram style determines and limits a leader's behavior
2. the gifts and strengths of each Enneagram style, and how, the leader's greatest strengths, when used to excess, often become his or her greatest weaknesses; and
3. the leadership derailers that are common to each Enneagram style, including how to prevent these derailers from impeding the leader's effectiveness.

What is the Enneagram

The Enneagram (pronounced ANY-a-gram) is a powerful and dynamic personality system that describes nine distinct and fundamentally different patterns of thinking, feeling, and acting. Each of the nine patterns is based on certain mental models - unaware assumptions or beliefs that influence how you understand the world and how you take action. In workplace, these nine patterns show up in the way you work, communicate, make decision, lead others, etc.

Method

Activities in the workshop include individual assessment, pair and small group discussions, brief lectures, large group discussions and interaction, demonstration, and skill practice.
